Visit Us In Las Vegas!

When at the National Industrial Fastener Show West, be sure to visit us. We'll have samples of the new special fasteners we've been making. You may be surprised at the variety of parts we now produce! Our Sales Personnel will be able to answer any questions you may have about our capabilities.

See you there !

Visit Us At Booth #404

If you have any items that have been a problem for you in the past—difficulty in getting them quoted, tight tolerances, quality problems etc. —send them to us.

We will quote them quickly and guarantee the quality.

Engineering Catalog On-Line Or On Disc

Safety Socket's Engineering Catalog is now available on a CD. You can easily view a vast amount of technical information on socket-drive fasteners using this handy tool. It's particularly useful for designers and engineers who are responsible for fastener applications. And best of all, it's free! Just send us an e-mail at safetysocket.com to request your copy.
