

## QUALITY POLICY

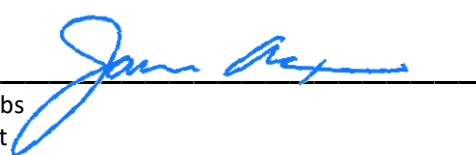

It is the policy of Safety Socket LLC to provide products which meet or exceed customer quality requirements and to provide associated services which meet or exceed customer expectations. With ongoing management attention and feedback, Safety Socket aims for continual improvement in these measures.

## PRODUCT BUNDLE

When we speak of “products meeting or exceeding customer quality requirements”, we mean that the products conform to all appropriate mechanical requirements (e.g. dimensions, material, finish and strength), the conform to applicable product specifications (e.g. B18, MS/NAS, ASTM and DIN) and are packaged properly.

## SERVICE BUNDLE

When we speak of “associated services”, we mean timely delivery, conformance to applicable system specifications (e.g. ISO 9001, AS9100, QSLM), appropriate technical support, prompt turn-around on RFQs and competitive pricing.
